

# R-32U | Directional Antenna

## Description

R-32U has the characteristics of reliable performance durable, which can provide the best receiving effect in the required coverage. The gain setting is used to enhance the signal reception. The R-32AU/R-32U can be fixed to the microphone stand or suspended from the ceiling, or it can be fixed to the wall using the integrated rotatable stand.

## Product Specification

Antenna frequency range:	470MHz~950 MHz
Amplifier frequency range:	470MHz~950 MHz
Antenna directivity:	Cardioid
Antenna polarization:	line
Antenna gain:	≥6.5dB
Antenna standing wave ratio:	<2
Amplifier low noise:	< 0.45 dB
Amplifier OIP3:	> 38 dBm
Connector port:	BNC female
Dimensions(mm):	Approx.332(L)x304(W)x30(T)
Weight:	Approx.715 g
