

PMW

Dynamic Vocal Microphone with Built-in Preamp

Description

PM3 Dynamic microphone has a wide, smooth frequency response and is suitable for content creation, voice, music and other applications . The built-in low-noise active preamp delivers up to +26dB of gain while maintaining frequency response for a clean, full, soft sound .The PM3 comes with a highly effective anti-pop filter, so you don't have to add extra protection to eliminate explosive breathing sounds. even when it comes to close vocals or narrative scenes.
