

H-33 | WIRELESS HANDHELD MICROPHONE

Description

- If you want to present a full and clear sound in the performance, you need to equip your HR-33 series wireless microphone system with a matching handheld microphone, and the H-33 wireless microphone is definitely the best choice. The microphone works freely with the latest version of the Relacart HR Series dynamic and condenser microphone capsule modules, is also compatible with many mic capsule module with standard interface of Shure, and its hidden button design effectively prevents accidental touches caused by improper operation during use.

Product Specification

Carrier Frequency Range:	521.25MHz~936.85MHz
Harmonic Radiation:	<45dBm
Bandwidth:	Single channel 134MHz (depending on the region)
Modulation:	FM
Audio Compression:	Relacart classic audio compression circuit
Microphone Element:	Dynamic/Condenser(removable)
RF Output Power:	10mW/50mW
Battery:	AA×2
Current Consumption:	130mA(Typical)
Battery Current/ Life:	Approximately 10 hours(alkaline)
Dimension(mm):	53(Φ) × 275(L)
Weight:	Approximately 322g(w/o battery)
