

UT-2

| WIRELESS BODYPACK
 TRANSMITTER

Description

- Contracted design style, solid and dural metal material, high contrast OLED display.Built-in gain adjustment function.
- Standard Mini XLR microphone interface, suitable for the headset mic and clip mic of a variety of well-known brand in the market. Suitable for application in speech, singing and other occasions

Product Specification

Carrier Frequency Range:	470MHz-960MHz
Harmonic radiation:	<45dBm
Bandwidth:	Single-band 134MHz
Modulation Mode:	FM
Audio compression:	Relacart classic audio compression circuit
Input Connector:	4-pin mini-XLR connector、Input gain 3 levels adjustable
RF Power Output:	10mW / 30mW
Battery:	AA ×2
Current Consumption:	130mA(typical)
Battery life:	Approximately 8 hours
Dimensions(mm):	84(H)×66(W)×23(D)
Weight (without battery):	Approximately 155g
