

GF-301A | GOOSENECK MICROPHONE

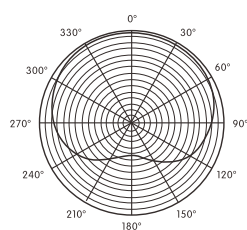

Description

GF-301A is a locking three pin balanced XLR female microphone microphone rod, which can firmly lock the base of the conference microphone to prevent various failures caused by looseness or poor contact. It has LED ring indicator light ring, which can tell the working state of the microphone through the light and dark of the light ring. FI shielding technology can effectively suppress external RF interference, and different appearances and lengths can be selected.

Product Specification

Capsule Type:	Back-electret condenser
Polar Pattern:	Cardioid
Frequency Response:	100-15000Hz
S/N Ratio:	>52dB/1kHz at 1Pa
Sensitivity:	-47 dB/1kHz at 1Pa
Maximum input sound pressure:	105dB SPL/1kHz at 1% THD
Output impedance:	680Ω
Interface:	Female 3-pin XLR
Indicator light:	LED
Length:	455mm
Weight:	195g
